Meet the Dooples is a new book, the first in a series, introducing readers to the characters **The Dooples**. Each of these characters is a writing tool, such as a pen or crayon, who comes to life at night thanks to the kooky professor Mr. Dooba Dee Doo. The other characters are cute and colorful and kids are sure to have a favorite. With characters like Sketchy the pencil, Marky the marker, and Dusty the chalk, how could they not? The book's objective is to motivate real life children to write, think, read, draw, and be creative. This book is very comic book-esque with bright, colorful pictures and text boxes that tell the story (in rhyme, no less).

This engaging, interesting book is sure to motivate young readers to write and find the fun in it. You can learn more about The Dooples at www.thedooples.com, where **Meet the Dooples** retails for \$13.95.
